

# International Motion & Drives Summit

# Compliance

We would like to draw your attention to the European and national antitrust law, which prohibits the discussion of competition-relevant topics such as prices or price elements or the exchange of sensitive company data during association meetings. It is also prohibited to coordinate competitive behaviour or to make corresponding decisions or agreements.

Violations of the antitrust law can be punished with high fines, which have to be paid by the association, its member companies and possibly also employees personally.

These rules apply during all EUROTRANS events, including breaks in the event.

By participating, you confirm your agreement to these rules.

ICC Guidelines on Antitrust Law Compliance:

**President EUROTRANS**

# Transformations and Challenges

## Digitisation/Industrie 4.0

- » Business models/platform economy
- » "World Machine Language" OPC UA
- » Digital Twin, Wireless Communications for Machines
- » Work 4.0

## Decarbonisation

- » Climate targets → CO<sub>2</sub>-free production
- » Energy transformation, H<sub>2</sub>, Power-to-X
- » Changes in mobility

## International added value

- » Protectionism/expansionism on the rise
- » Value chains are in upheaval

## Business environment

- » General conditions often not suitable for medium-sized companies
- » Debate on justice too often overshadows economic policy modernisation
- » Growing scepticism about technology in society
- » Tax incentives for investment and innovation

## Reform Europe

- » Internal Market
- » Monetary Union
